EXPERIENCE

Geekskool (bootcamp), Bengaluru — *Student Developer*

APRIL 2022 - PRESENT

- Attending coding bootcamp to learn web development using JavaScript/TypeScript, React, and Express JS.
- Using PostgreSQL and MongoDB databases to store and manage data while building web applications.

PROJECTS

Airbnb-Clone – github.com/Darshan-V/Airbnb-clone

- Developed an Airbnb clone that managed user bookings and reserved slots, utilizing React, Tailwind, Redux, and Chakra-ui for the frontend, and Node.js, Express.js, and PostgreSQL for the backend.

OuterSpace – github.com/Darshan-V/outerSpace

- Developed a Spotify app UI clone using React and CSS modules for frontend, integrating Shazam's API for song data, and gaining experience with Redux and Redux Toolkit.

Lisp Interpreter – github.com/Darshan-V/LispInterpreter

- An interpreter for a subset of list in parser method written in Javascript

JSON parser - github.com/Darshan-V/jsonParser

- Successfully implemented a JSON parser in JavaScript, which involved parsing JSON data and converting it into JavaScript objects, arrays, and values.

EDUCATION

SJC Institute of Technology (VTU) - Chickballapur,IN
B.E in Computer Science, 2021
CGPA - 6.7/10

PROGRAMMING LANGUAGES

Fluent: Javascript, Typescript, NodeJs, HTML/CSS

TECHNICAL SKILLS

Libraries/Framework: React, Vue, Express.js, Tailwind, Chakra-ui, Next.js, Nest.js, Radix-ui

Databases: PostgreSQL, MongoDB

SKILLS

Frontend/Backend Web Development

TOOLS

Git, Linux Command line, Chrome DevTools, Postman
